☎ xxxxxxxxxxxxxx ✉ xxxxxxxxxxxxxx

Architect – Newcastle University – xxxxxxxxxxxxxx

Completion – March & September 2016 (2 Main Projects)

Value - £650,000 (*JCT Measured Term Contract 2011*)

Site Man. - Paul Airey

As the University's No1 Framework Contractor we were appointed to carry out several projects of the refurbishment of Herschel Building.

The main two projects were undertaken in 2016, one being the refurbishment of the 1<sup>st</sup> Floor & the 2<sup>nd</sup> later project the refurbishment of laboratories in the 2<sup>nd</sup> floor annex. The works were mainly carried out during term time, so co-ordination and working with the department and other building users was crucial to the works being successful.

The works were completed on time we have received excellent feedback from the client and occupants both during and post completion. Our philosophy of understanding and working around the client's needs certainly helped on this live site and enabled ourselves and the University to function alongside each other.
